MC 405 Macrofan Power UHS Clearcoat

**Ultra High Solid Clearcoat with
POWER technology**

MC405 is the clearcoat with ULTRA RAPID drying with REDUCED ENERGY CONSUMPTION without compromising the durability or quality of the final finish.

MC405, thanks to POWER technology, can be USED FOR ANY TYPE OF DRYING, also for partial cycles or with low performing ovens.

After the AIRTECH technology for repairs without energy consumption, Lechler has developed the POWER technology. It allows a REDUCED USE OF OVENS thanks to fast application and rapid drying also in low temperatures.

MC405 achieves the Lechler technological goal of REDUCING THE ENERGY COSTS in body shops.

MC405 provides MAXIMUM APPLICATION FLEXIBILITY and LOW LEVEL VOC emission (<420 g/l) complying with 2004/42/CE legislation.

MACROFAN MC405 POWER is part of the selected product line aimed at LECHLER SYSTEM high efficiency processes.

**There is not a correct process
for all repairs, but there is
a right process for each repair.**
